## WHAT MAKES US DIFFERENT?

### SEE HOW WE HAND MAKE AND PRINT OUR PAPER GOODIES

Our recycled Cotton Papers are handmade using 100% cotton waste gathered from the textile trade.

The cotton waste is chopped, pulped, washed and dyed to create our Vivid base paper colors.

The cotton is hand pressed onto mesh frames where paper thickness (gsm) is skilfully determined by touch and feel.

Excess water is pressed out of the paper and once made, each sheet is hung in warm sunshine to dry!

It takes two skilled workers a whole day to hand make 500 sheets of recycled cotton paper, a centuries old skill, taught and passed down from one generation to another. It is truly wonderful to see this paper being made, knowing that it is completely tree free and made using waste cotton that would have been discarded.

#### WHY USE COTTON PAPER?

- It's tree free
- Made from 100% recycled cotton pulp
- Strong and easy to use
- Recyclable and biodegradable
- Certified by the Global Recycled Standard

At Love Vivid we use traditional artisan screen-printing techniques to bring our vivid patterns to life. Each water-based ink is skilfully mixed by hand then screen printed onto our recycled and handmade papers. Unlike other printing techniques our inks sit on top of the paper to create a vibrant color POP!

Every print is a mini work of art!

We filter, treat and reuse all the water within the factory, harvesting rainwater for future use.
